TOBB OSMANIYE FEN LİSESİ

TOBB OSMANIYE FEN LİSESİ

Osmaniye Science High School was put into service in the 2001-2002 academic year with the contributions of "The Union of Chambers and Commodity Exchanges of Turkey, the Union of Serving Villages" with the great efforts of the Honorable Governor "İsmail Fırat". TOBB Osmaniye Science High School is a high school education institution that provides four years of education after secondary school. Our school is a science-based school.

TOBB OSMANİYE FEN LİSESİ

The classes are Turkish Language and Literature, History, Chemistry, Physics, Biology, Music. ICT, PE, Music, Maths, Geography, Philosophy, Religion, English and German. There are many social clubs in our school. Music, sports, e-twinning, travelling, culture and literature, social assistance, mind games clubs are the ones that work the most.

TOBB OSMANIYE FEN LİSESİ

Our students are 14-18 years old.They are all hardworking and selected according to an exam which is taken at the end of the secondary school.Our school has a lot of success in sports competitions both locally and nationally. It has very successful students in sports games such as table tennis, softball, football, archery, chess,volleyball,basketball,chess

TOBB OSMANIYE FEN LİSESİ

Our vision is to train students who will invent innovations that will make a name for themselves in the scientific sense and shed light on the age. Our mission is to raise young minds who are open to change, helpful, able to put the interests of the country before their own, approach events without bias and prejudice, and support all these features with academic success, who can be leaders in the country's administration in the future

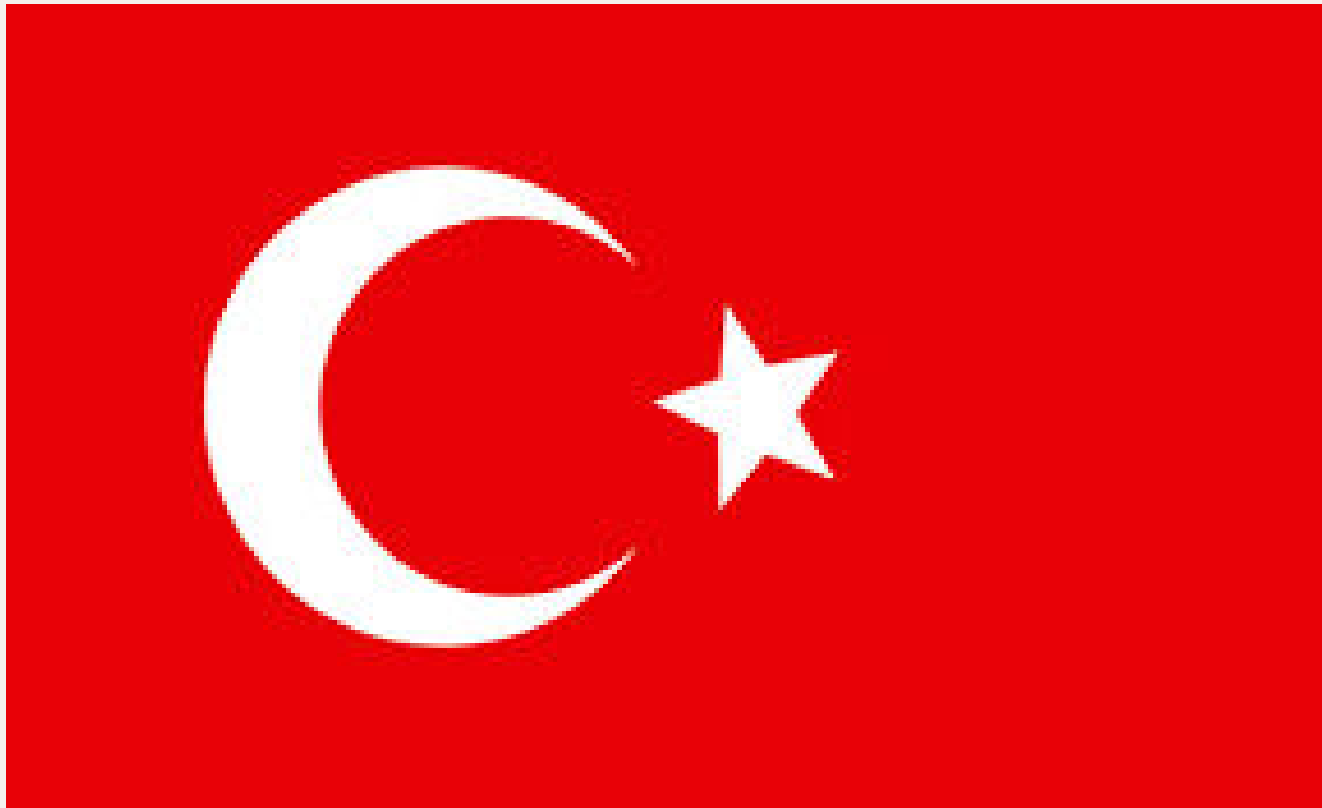

TOBB OSMANIYE FEN LİSESİ

In our school, we supply saplings and seeds from the Provincial Forest Directorate several times a year and plant trees in areas burned by fires with the students. The city we are in is rich in forests, but we sometimes have to fight fires because the summers are very hot. Our students are aware of the importance of planting trees and forests. We organize campaigns to prevent environmental pollution. We start this by cleaning the surroundings of our own school. Sometimes we visit picnic areas and clean them up with students. We make our students comprehend environmental awareness.
